

A Tea of Individuality

Blue Ribbon Tea has an individuality of its own. No other tea is like it not only in its flavor but in its strength. It suits all classes. If anyone finds Blue Ribbon is not superior to the tea formerly used, all that is necessary is to return the packet and have the money refunded. Buy a packet. Your grocer has it or will gladly get it to fill your order.

PROMINENT WATER UTILITIES COMMISSIONER IS VISITING CITY

INTERESTING EDMONTONIANS IN A LEAGUE WHICH WILL SEND ENGLISH WOMEN TO CANADA

Miss E. C. Sykes, a woman who has spent two years in the heart of Persia, has written a book entitled "Through Persia on a Side Saddle," and is now at work on another entitled "Persia and its People," in it is an account of the life of a woman in the interests of a mission to assist the women of moderate means to come to Canada where they will be able to secure positions of various kinds. She represents the Colonial Industries League, which was organized by Hon. Mrs. E. C. Sykes, Mrs. Grosvenor, is now in Vancouver furthering the interests of the league. Her object in organizing it was to assist the large number of people of moderate means and usually of excellent attainments in Great Britain to come to Canada and get suitable positions.

It is the intention of Miss Sykes while in Edmonton to interest local women in the undertaking. She expressed the intention of calling upon Mrs. D. McKenney, deputy minister of education, and discussing with him the possibility of placing educated young women of Great Britain in positions out here. To look after the interests of the league in Edmonton a secretary will be appointed here to keep in touch with the head office in London. In time a house will be maintained in Edmonton for the reception of young women who come here under the auspices of the league.

Miss Sykes first went to Persia when her brother, Major Moresworth Sykes, was appointed a consulate in the southwestern part of the country. He was formerly connected with the second dragon guards and is now in the India political service. He has written books on Persian life and on the religion of the country.

MANY SETTLERS COMING FROM U.S.

MANY RESIDENTS OF MONTANA WILL GO TO PEACE RIVER NEXT SPRING.

"The Edmonton board of trade is advertising more extensively, applying better methods and getting better results than any other board of trade that is appealing to settlers across the line," said W. L. Clark, publicity commissioner for the provincial government at Great Falls, Mont., in conversation with the Capital this morning. Mr. Clark has just returned from Great Falls, after completing the season's work in sending Canadian settlers to the farms of the central states. The Alberta government office was opened early in the year, and closed on June 1.

"Montana has had no immigration during the past year," said Mr. Clark, and is scarcely holding her own in the matter of population. The settlers who come through Great Falls are almost all bound for Northern Alberta. They all take the Peace River. Calgary is doing practically nothing effective in the way of advertising, and the settlements north and west of Edmonton, up to Athabasca Landing, Lac La Biche way, and way up in the Grande Prairie country, are getting the pick of the immigration now.

"The population of Butte, Montana, has fallen off by 5,000 within the past year. Labor troubles are frequent. The unions there have the manufacturers nailed to the post, and are one of the chief causes of the falling off in industry, in my opinion."

Mr. Clark declared that the American railways are doing everything in their power to retard the movement of settlers towards Canada, and the Great Northern give out nothing but evil reports of the Canadian side of the Great Falls papers recently published a most obviously lying article on Canadian conditions, but was subsequently induced to apologise.

Mr. Clark will leave for Morrisville in a few days time, to conduct the business of Clark & Robinson, milk separator vendors, in association with his partner.

LEFT PROPERTY VALUED AT \$114,197

WILL OF LATE FREDERICK SACHE PROVED IN DISTRICT COURT YESTERDAY AFTERNOON.

In the will of the late Frederick H. Sache of Strathcona, which has been proved in the district court, the widow of the deceased, Mary Ann Chalmers Sache, is appointed sole executrix of the estate, which amount in all to \$114,197, of which \$77,762.16 is in real property and \$36,434.81 in securities for money. The real property is to be distributed when she sees fit, the quarter going to herself, one quarter to daughters, Helene and Francis, and one quarter to the son William Henry Sache. Mrs. Sache will retain all interest in respect to the latter portion until the boy, who is now a minor, is twenty-one years of age. The succession duties on the estate amount to \$2,731.94.

UTILITIES COMMISSIONER REGISTERS HIS OBJECTIONS

WAITS UNTIL PAVING CONTRACT IS LET, THEN DECIDES PRICE IS TOO HIGH—ASKS BOARD TO CALL FOR NEW TENDERS.

After contributing another installment of his objection methods to the press in Edmonton, Mr. Bouillon received a job that warranted them up near the close of yesterday afternoon session of the city commission, being roundly scolded by Commissioner Aear. The heated discussion of Mr. Bouillon's objections to the recent action of the board last Friday when the Bouillon Co. was awarded the contract for paving the city streets was too high, assuming that as the chief reason for delaying the work of paving streets.

"I am firmly convinced that the ratepayers of these city districts will not be satisfied with the work of the Bouillon Co.," said Commissioner Aear, "and it is about time to do something about it. I don't like the many improvements badly needed. I don't like the delay in the matter for the sake of that guarantee. I think the council will give us a guarantee if we ask for it."

Mr. Bouillon, continuing his objections, said the contract price was too high and contended that the city could get just as good work for less money.

"Where can you get better paving than the Bouillon paving?" inquired Mr. Aear.

"If you know so much about paving, tell us something about it," Commissioner Aear asked, addressing Mr. Bouillon.

"Well, I have been studying paving for the last 20 years but perhaps I don't know anything about it," replied Commissioner Bouillon in a casual tone.

Mr. Bouillon's letter follows:

"I respectfully beg to re-open the subject of paving contracts and request that the action taken last week regarding the contract to the Bouillon Co., be reconsidered on the following grounds:

"The tenderer in question did not comply with the engineer's specifications for tenders and they omitted certain vital prices.

"The said tenderer did not guarantee his pavement.

"The tender, upon which the contract was awarded, was the highest priced tender compared with prices quoted on first class pavements; it is several thousand dollars in excess.

"I recommend that all tenders be rejected and the contract re-advertising, believing that it will be to much advantage to take such a course and to give a fair chance for new tenders and to exceed a few days."

Mr. Butchart seconded Mr. Bouillon's motion that the action taken at the last meeting of the commissioners be rescinded.

Mayor Armstrong moved an amendment that the matter be referred to the city engineer to see if the latter does not furnish a guarantee, to be re-advertised for job tenders.

A communication was read from Commissioner Bouillon embodying suggestions that immediate action be taken to provide an adequate and reliable water supply plant for the city and to at once select a site for such a plant. On motion of Commissioner Butchart, Mr. Bouillon, the city engineer and superintendent of the waterworks, were named as a committee to look into the proposition.

Tenders were opened for the reconstruction of No. 1 fire hall on Seventh street for which provision was made about a year ago by ratepayers of the city at a special election. The following bids were received:

Alberta Builders, \$12,250; Nesbitt & Miller, \$12,275; J. F. Yull, \$14,614; McSparran & Co., \$14,911; Alex. Beaton, \$15,450; G. G. Grier, \$15,000; McCarthy & Co., \$18,000.

Some of the tenders were not accompanied by checks, as is usually the case, and it developed that the specifications did not call for checks, although the advertisement did. The tenders of those who failed to include checks were therefore included with the rest. The tenders were referred to the city architect and building inspector with instructions to report at the next meeting of the commissioners.

The tender of W. E. Seagraves to furnish an aerial ladder fire truck for \$6,750 was accepted, it being the only bid.

Suggestions that a bylaw be passed requiring all driver of vehicles to turn to the right elicited a statement from City Solicitor Down to the effect that in an old English law made provisions of an absolutely contrary nature, dictating drivers to turn to the left, and, however, that it was more a custom than anything else, there being no penalty attached. On motion the matter was referred to the city solicitor and Commissioners Aear and Gandy with recommendations that they prepare a draft of a proposed bylaw for the consideration of the city council, requiring drivers to turn to the right.

An opinion was read from City Solicitor Down to the effect that the city has no power to grant free necessities to any manufacturing site.

Another communication was received from the city solicitor stating that he had been advised that the board of railway commissioners will sit here late in the summer or early fall.

GRADERS OUSTED BY MOUNTED POLICE

Laconie, June 6. The 80 G. P. R. graders who refused to leave the G. P. R. camp on last Friday night have finally taken themselves away when they realized that it was useless to endeavor to force the G. P. R. to keep them employed. The arrival on the scene of the mounted policeman from Edmonton and other towns was sufficient to bring them to this decision. Less trouble than was at first expected was experienced in dealing with the situation.

About 1:30 Saturday afternoon the mounted police approached the graders in a body and ordered the rebels to get out. They immediately complied and helped themselves across the country from Blackfalds to Laconie where the majority of them are seeking work. As a precaution against any outrages in this town additional police have been employed there until the trouble has been finally settled.

MANY BUSINESS BLOCKS ARE NOW BEING ERRECTED IN CITY

BANK BUILDINGS COMPLETED THIS YEAR VALUED AT \$190,000—SCORES OF PERMITS ISSUED WEEKLY—BUILDING WILL REACH \$5,000,000 MARK.

While all previous building records in the city of Edmonton have already been broken by a considerable margin the five months which ended on May 31 showing a larger total in building permits issued than any period of twelve months in the past, the year 1911 will be characterized in that it will witness the completion of business blocks and public buildings to an extent hitherto without precedent. It was in the summer and fall of last year that the building inspector's department first became inundated with applications for permits in respect to buildings of the most valuable class, and the metropolitan aspect which the city has assumed the rapid building up of stately business streets with structures of modern design supplanting the lightly built stores and other premises of pioneer times has been added to in a remarkable degree by the work that has been put under way, and in many cases carried through to completion since the fall of 1910.

Taking into consideration only such buildings as are of a value of \$10,000 and upwards, buildings which whether of a business or public character, serve to accentuate the rapid emergence of Edmonton from the small city stage into her more recent phase of metropolitanism, it is notable that before the end of 1911, according to the statistics now in sight and apart altogether from the several big blocks for which permits have not been issued as yet, but which contractors expect to complete this fall, structures of a total value of \$1,500,000 will have been fitted for occupation. Some of these were started last fall, but only reached a very elementary stage of construction.

Since the opening of 1911 the public buildings and business blocks which have been completed or occupied, are of a value of \$532,000. There remain to be completed, and will be completed before December 31, given favorable working conditions, buildings of an additional value of \$1,000,000, exclusive of the parliament buildings, one wing of which will be completed when the legislature meets in the fall.

Worthy of a city of many times Edmonton's population are the structures now under construction at the city, or completed since the opening of the year.

Bank buildings alone of a total value of \$190,000 have been completed and occupied since the beginning of the year. These are the Union bank, which cost \$53,000; the Nations bank, \$40,000; the Dominion bank, \$52,000; and the National Trust building which was erected at a cost of \$45,000. All

What is the Matter With the Water Supply?

What is the matter with that filtration plant, anyway, and what have we got for the \$90,000 that was spent on the contraption that was intended to take the mud out of the drinking water at the bottom of the hill?

Mr. Bouillon said at the opening of the season that he did not think the water was going to be dirty so early this year and that was why he did not have the filter ready on time. But that was early in the season, and the time when such an explanation would do has gone past some time ago. Then he told us that the sedimentation basin was not safe and could only be half filled. But the sedimentation basin half filled did service last summer and the citizens got water that at least did not have to be taken out of the tap with a gimlet.

Now Mr. Bouillon says the commissioners should go into the whole question of the water supply, as the sedimentation basis is no good, the pump house a wreck and the whole plant will have to be rebuilt before the city will be safe to enjoy an adequate supply.

Is that to be taken to mean that the promises that the filtration plant would be running some time this summer is all off now and that the people who would like to drink water will have to go on consuming mud until such time as the new plant is built? If that is the case, the city is likely to lose some of its population, and it will not be by emigration either.

And if that is not the case, how long is it going to be before we get water clear enough to see through a glass wall?

A Burst of Prosperity For the Canadian West

That 1911 is to be the greatest year in the history of the northwest is now absolutely assured. The growing season is already well enough advanced for the crop experts to form a fairly accurate estimate of the probable production. The acreage is known and the probable average can be forecasted almost to a fraction. No less an authority than William Whyte estimates that wheat crop alone at two hundred million bushels and other authorities equally conservative corroborate his estimate.

Owing to the light crop last year in almost every district but the Edmonton district, and to the enormous amount of new breaking the area under crop is enormously greater this year than ever before, and in no year in the country's history has the crop been put in under conditions so uniformly favorable. For once the whole country reports sufficient moisture and a splendid growing season, while there has yet to be heard a suggestion of blight or pest of any kind.

The short crop of last year will find the world waiting for the new cereal, with elevators empty and transportation lines ready to get away to the best start they have ever had in handling the crop. There will be blockades and there will be shortage of money when the crop is finally harvested and this great tide of grain swirls into the channels of transportation on the rush to the market, for no crop has ever been handled without difficulty and this one, the biggest of them all, will tax the railways as they have never been taxed before. But the railways are in an immensely better position to handle the crop this year and it will all get to the market within reasonable time.

And when that two hundred million dollars rolls back into the hands of the agriculturists of the northwest there will be a burst of prosperity that will make all the growth of trade which has gone before look like the operations of a corner store by comparison.

One of the Little Things Which Indicate Progress

One of the little things which indicate the rapidity with which the last west is being taken up is found in the announcement of postal changes for the month of May. Grande Prairie gets a post office.

In spite of the fact that settlers have been advised against going into the Peace River country ahead of the railway, thousands have already negotiated the difficult trail and have established homes in the new land, undertaking all the hardships of a pioneer existence for the compensating advantage of a choice of a quarter section in the finest land that lies out of doors. Following close behind them come the facilities of civilization. The telegraph line is operating to Grouard and the postal service has been extended right into the heart of the Peace River country.

This year will see the railway to the Pembina and next year will see it across the Athabasca. When that time comes the last best west will fill up so rapidly that those who hope to establish a home on free land will have to hurry or be forever too late.

Senate Majority Cheering News to the West

It is now assured that the reciprocity pact will pass the United States senate without amendment by a majority of not less than thirty.

This means that by the time the wheat crop is ready for market the agreement will have been ratified by both governments and the supply from the Canadian northwest will for the first time in history have the benefit of a competitive market.

Experts who have figured on the wheat business from all angles differ as to the effect of the reciprocity arrangement on the market, some claiming that the effect of admitting Canadian wheat to the United States market will be to break down the American price to the Canadian level, while others claim that the effect of allowing American buyers into the Canadian grain fields will be to bring the Canadian price up to the United States level.

It is altogether probable that neither is wholly true, but that a half way effect will be the result. But even if the difference to the Canadian wheat grower amounts to only one cent a bushel, the Canadian west will be two millions better off this year by reason of the reciprocity pact.

The news that the agreement is going to pass the senate by any majority at all is good news, and the news that it is going to pass by any such majority as thirty is so good that it is assurance in advance that the next hack at the tariff will not be long in coming and that it will chip off another large section of the wall.

MANY BUSINESS BLOCKS NOW BEING

(Continued from Page Two)

of these buildings, with the exception of the National trust block, are located upon Jasper avenue. Two hundred and two thousand represents the increase in value of the educational buildings by the opening of this spring. The high school cost over \$100,000, and the Seventeenth street school \$75,000.

In both of these buildings there is an advance in school architecture and equipment compared with all previous school construction in the west, to be noted. The Heimann street school, at cost in the neighborhood of \$100,000, is now well under way, the foundation walls nearing completion, other buildings upon which work has recently commenced are the Great West Saddlery company's block on Fourth street, which will cost \$100,000; Jackson Bros' block, near Jasper, a five-story building with solid stone front, to cost \$55,000, and the \$65,000 Alexandra block, to be erected by Piesey and Batsell on Elizabeth street, for \$65,000. Excavation in connection with the two latter buildings was commenced yesterday. The Jackson block will be 140 feet long by 29 feet 6 inches, and the Alexandra block, 98 by 55 feet, will provide space for stores on the ground floor, and 42 offices and apartments in the upper stories. The Alexandra block will be finished in August, and will include.

Other buildings which will be completed before the close of the building season, are the Teator block, \$120,000; the new Presbyterian church, \$85,000, on Fifth street; Ross Brothers' new store building, \$60,000, the Home Loan and Trust company building, to which an addition is being made, the court house, estimated in 1908 to cost \$750,000.

COMMENCE CONSTRUCTION ON STRATHGORDA-CALGARY LINE

(Continued from Page One)

One of the new stations will be begun before the present season closes and nothing of a definite nature was given out by the general manager while here. Work on the southeast connection with Canmore is progressing very satisfactorily and by the fall this link in the extension to Calgary in that direction will have made a triumphant entry into this city.

Mr. McLeod was in the city but a short time Saturday night, having come in while on a trip of inspection throughout the west.

Commence on Post Office

For the seventh time the citizens of Strathcona are assured that the new post office will soon rear its ornate walls on Whyte avenue west. And this time there seems every reason to believe that nothing will cause further delay in the erection of the over-due structure. Mr. M. M. Pigott of Hamilton, senior member of the firm of Pigott and Sons, contractors, reached the city yesterday to get the work under way on the building and he very positively asserts that the post office will be ready for occupancy by next spring at the latest. Mr. R. B. Pigott of the firm will reach the city today and he will be in charge of the construction work. Mr. Pigott, Sr., will remain until the end of the present work for the arrangement of preliminary details.

From the record of Mr. M. M. Pigott as a builder there is little doubt that any line will be lost in building Strathcona's post office. Twenty-five years ago Mr. Pigott erected the territorial buildings of Hamilton, and since that time has been constantly engaged in general contracting work in various parts of the country which included the construction of big bridges and public buildings. In addition to the Strathcona post office the firm are contractors for new post offices in Souris, Manitoba and Battleford, Sask., some already very satisfactorily under way. On both of these structures work is the supervision of junior members of the firm. Owing to the extending of their interests to the west it is probable that Pigott and Sons will soon establish a branch of their business in Edmonton.

This is Mr. Pigott's first visit to Alberta but his conversation shows that he is well informed on provincial doings and his opinions of general conditions are unusually keen and near the actual facts.

WILL ATTEMPT TO NEGOTIATE RAPIDS

An attempt will be made this week by Captain Short, a half breed river pilot operating on the Athabasca river between Athabasca Landing and northern points, to take a partially loaded scow through the channel in the Grand Rapids blasted out by the Dominion government last year. Captain Short is considered one of the best scow pilots on the river. He is confident that he can make the trip in safety.

During the last season quite a number of ice boats were run down the river by workmen in the employ of the Dominion government. The channel is now open and the work of last year has done much to help conditions. Much more work will have to be done before navigation of the rapids can be carried on safely.

Hillier it has been the practice for freighters with loaded scows to unload them at the rapids, track the empty scows past the rapids where the freight was being transported over a trestleway on the shore, and then reload the scows when the rapids are passed. This will probably be the general practice this year, only one or two of the more adventurous of the pilots at freighting to navigate the dangerous waters.

SCARLET FEVER PATIENTS ATTEMPT TO AVOID QUARANTINE

(Continued from Page One)

variably pleads ignorance and so escapes a fine.

The disease this year has been uncommonly prevalent throughout Alberta and in general over the whole Dominion, but to what extent this has affected the city of Edmonton by means of the travelling public it is difficult to say though it is altogether likely it has been a considerable factor.

Vaccination
 During the month 68 vaccinations have been performed in addition to a large number to whom certificates of previous successful vaccination have been issued. This is some indication of how rapidly our population is being inoculated by new cordons.

Police and Fire Departments
 Many applicants have been examined as to their physical fitness during the month.

Vital Statistics
 Under the head of vital statistics, Sidney A. Main, city health inspector, reports that in the month of May there were 67 births in the city, 43 marriages and 29 deaths. Of the births only one was a non-resident. There were seven premature births, including one set of twins. Six died from pneumonia and two from tuberculosis.

The report of A. Logan, dairy and

milk inspector, shows that during the month 45 dairy farms were visited and inspected and, with one of two exceptions, found that in general the sanitary conditions were fairly satisfactory. The samples of milk taken tested from 7.1 per cent to 4.5 of butter fat.

Mrs. and Miss Newton, late of Malvern, Worcestershire, England, have taken up their residence in Edmonton.

REAL ESTATE IS THE FOUNDATION OF ALL SUCCESSES

The Wise Buyers will Look Over This List Carefully

HOUSE AND LOT, Groat Estate—27th St., near Jasper, in one of the best residential parts of the city. Elegantly, newly built, seven rooms, modern in every respect. A house you would be proud to call your own. Surroundings are perfect. Four sleeping rooms, dining room, sitting room, kitchen, large vestibule and hall, full size basement. Step in and see a photograph of this. \$6,000; \$1,000 cash, balance to suit.

HOUSE AND LOT ON SYNDICATE—Good car service. \$3,600 takes this nice place. Must be seen to be appreciated. Eight rooms, fully modern. Pantry and kitchen and little chicken-house in the rear. Nice sunny room, kitchen, large vestibule and hall, full size basement. Will rent for \$25.00 a month. Be a hundred per cent man and own your own home. One thousand cash and balance arranged.

HOUSE AND LOT ON 15TH ST.—One block south of Jasper. Modern in every respect. Built for a home and not for speculation. We can satisfy you on this if you will let us show you. A four-room Cottage just the place for a newly married couple. Nice sunny room, kitchen, large vestibule and hall, full size basement and screens. If we could make you understand what this is as well as we do, we feel confident you would say, "This is mine." Price \$2,250. Cash \$1,000; balance to suit.

INGLEWOOD

DOUBLE CORNER in Block 60, and one Block 45. This is near where the car line is now building. Let us show you these.

BEECHMOUNT

TWO LOTS—Nice 4-room house, \$1,300. Plenty of room for nice garden. Just the place for man with small family and moderate income. Plenty of room to raise chickens. Think this over and quit paying rent.

Military Point Cooking Lake

Well, where did you get the name, some of our friends ask us.

Well, this is the spot where the Hundred and First Regiment made their camp last year. They had a good time. They selected the place because the land was high and dry, the beach cool and the distance from the station short; plenty of good shade trees and a score of other qualifications. So the owner of the property did them the honor to name the subdivision "Military Point."

Lots are selling at Military Point for the very reasons above mentioned. There will be special train service all summer long. The rate is to be 30c. for the week-end.

The price of lots is \$150.00 to \$200.00 and the terms are easy.

NEWS OF THE CITY

Judge Taylor holds district court in Edmonton today.

Mrs. Dickens, 520 15th St., is giving a tea on Thursday afternoon from 3 to 6 o'clock for the ladies of Christ church parish.

Dr. Mary Rice of Bombay, India, who is expected here to take over the practice of Dr. Ella Syme, has been delayed, will not arrive in Edmonton this month as expected.

The funeral of Constance Nora Asher, aged 11 years, daughter of Mr. and Mrs. Wm. Asher, 375 Fourth street, who died Saturday, will take place at three o'clock this afternoon.

The Edmonton Poultry and Pet stock association will hold their regular monthly meeting this evening in the exhibition association offices. Prof. Elford, of McDonald College, Que., will address the meeting on "The Marketing of Poultry." All members and others interested are particularly requested to attend.

On the occasion of her leaving the service of the Hudson Bay Co., Miss Lena McEachern was the recipient on Saturday of a parting gift, a number by her co-employees in the store. The presentation was made by Miss Dyer, head of the dressing department of the store. Miss McEachern is to leave Edmonton to reside at the Pacific coast.

Hon. C. R. Mitchell will leave the city for Calgary tonight to attend the funeral of the late A. J. McArthur, M. P. He will be joined in the city by Hon. Arch. McLean, Hon. Duncan Marshall and a considerable number of members of the provincial parliament will also attend the obsequies.

Hon. C. R. Mitchell, attorney-general and minister of education, returned to the city this morning from a tour of the southern part of his constituency. During his ten days' itinerary, Mr. Mitchell rode through the constituency of Medicine Hat almost to the international boundary.

Word has been received that the colors which are to be presented to the 101st regiment are on their way here from England and will arrive in the city shortly. They will be presented to the regiment on coronation day.

Drill for tonight for the 101st Fusiliers will include lines of company columns and some ceremonial movements by way of preparation for the presentation of the colors on coronation day. The company which will act as escort for the colors will be selected tonight.

Application has been received by the attorney-general, for incorporation of Annapolis Landing as a town. The decision to apply for incorporation was reached at a meeting of the village held last week. A population of 100 people is a necessary condition of incorporation, and the village council content that this figure has been surpassed to a very wide margin since the business activity of the season commenced.

No new appointments to fill the vacancies created by recent changes in the government offices will be announced for some time to come. Changes are to be made in the administration of the department recently directed by A. Y. Blain, inspector of legal officers, who has been placed in charge of the land titles office, the work being divided amongst several officers.

J. J. Steel, Dominion land surveyor, in a number of townships west of Athabasca last year completed the survey of Joseph Landing, will leave the city in a motor car a few days to survey townships 61 and 62, ranges 21, 25, 26 and 27, of the third meridian. The townships are on the western boundary of Saskatchewan, a short distance south of God Lake.

At 6:30 this morning of Cooper Cliff, came into the city this morning and will leave in the course of a few days on a prospective trip to the north. Mr. Kilpatrick has spent fifteen years in prospecting in New Ontario and in the Western States. He has never before visited the Canadian west. Mr. Kilpatrick is a guest at the Windsor hotel today.

On Wednesday evening June 7, a lantern lecture will be delivered by the Rev. W. J. Conely of Port Saskatchewan on "The Orange Lodge and Why It was Formed." In the Gaiety hall, corner of Griesbach street and Sanjour avenue. The lecture will commence about 8 p.m. The Rev. Conely is the Worshipful Master of the Edmonton County Lodge and has some 80 slides with which he illustrates his interesting lecture. A small charge is made for admission.

NEED COURT STENOGRAPHER

Police Court Cases Cannot be Proceeded With Until One is Appointed

Because there was no court stenographer and because it was impossible to secure one Jack Madden who is charged with having obtained an order under false pretenses on May 31 in the neighborhood of To-feld will have to remain in the police cells for another 24 hours. Madden was arrested on Saturday and was brought up for trial on Monday. The case was adjourned at that time till this morning for some unknown reason possibly because there was no stenographer. On Saturday when the Knights of Columbus offered to bail him out no effort was made by the police to find a magistrate to give him bail.

The defense objected to the hearing of the case without an absolutely reliable stenographer, and the magistrate admitted their objection. "If," said the magistrate to the prosecution "you can produce a stenographer or prevail upon the city to do so the case will go on." They were unable to do so and Madden was sent back to the cells until it comes again.

Magistrate Gowan stated when interviewed on the trouble that it was causing considerable inconvenience. It was impossible to hear any contested case until a stenographer was secured.

ROYAL TRIBUTE TO CHEVALIER

One of Albert Chevalier's most treasured souvenirs is a very handsome scarf-pin presented to him by his late majesty King Edward VII., after a royal command, during the visit of Kaiser Wilhelm. The occasion was Queen Alexandra's birthday, and it was at her desire that Mr. Chevalier appeared in one of his famous "Recitals," an entertainment similar to the one which he will give on his forthcoming Canadian tour. Chevalier was the first actor of any standing in London to leave the theatre for the music halls, and his success in these popular places of entertainment was due to the fact that his methods were those of a trained exponent rather than of a dilettante.

He never claimed to be a "comic singer," but a character actor, and his best work—the work he has done during the past ten or twelve years, has established the justice of that claim. Those who have only seen him in "Recitals" in the English music halls or in American vaudeville, can hardly be said to have seen him at all. It is in his recital entertainment, or on the concert platform that he is at his very best. The range of his characterization is remarkable. A coster of a curate, a west country landlord, or a typical Frenchman, an old soldier or a village constable, a young cockney or an old tragedian; each distinct and each true. From a tramp to a cultured old English clubman is a far cry, but it is a cry which Chevalier can call and call his own.

Chevalier comes to the Empire theatre June 8, 9, 10.

AT THE LYCEUM
"My Marriage a Failure," in the hands of Sherman, Cleveland's "Merry-makers," fulfilled all promises, and proved a decided hit.

The comedy is extremely funny, and the musical numbers are beautiful, new and original. This little musical jewel gives every member of the company a good chance to show him or her ability as a fun-maker.

A special feature of the production is the song hits. With the chorus doing some fancy dancing and the best cast of principals, "My Marriage a Failure" makes a splendid little show.

MORE SETTLERS COMING.
"People leaving Montreal every day for Alberta will not wait for the special trains," writes L. H. Maclell, commissioner of the provincial public department in Montreal in a letter to the Publicity Commissioner, Saskatchewan. The settlers who left Montreal on May 30, en route for Alberta by the G. T. P., are among the best offered for Edmonton or Vegreville, according to Mr. Maclell's letter.

TONIGHT'S COUNCIL MEETING
Everything indicates that tonight's session of the city council will be a practically devoid of special features unless something new develops within the next few hours. The business scheduled for the meeting is largely of a routine nature which can be disposed of in a comparatively short time. It is understood the councillors that have under consideration the two gas propositions—those from Mr. Eaton and those offered by British Columbia. Mr. Coates represents, are not ready to report and may not be for several days yet.

Mrs. Moran, a woman who has given considerable trouble to the justice of the law created some excitement in the mounted police barracks last night when she left her chambers in her cell and managed to break every light of glass in the heavily barred window. Members of the police force rushed into the scene and upon entering her cell were threatened with serious injury at the hands of the woman. She brandished the chair about her head in an alarming fashion until the police succeeded in disarming her.

HAINES-WEBSTER
At 6:30 this morning of Robert Haines and Miss Ethel Webster daughter of Mr. W. J. Webster, 1651 Victoria avenue, Edmonton, tried to tie in marriage the ceremony being performed by the Rev. Dr. McQueen of the First Presbyterian church. The bridemaids will be Miss Ethel Webster, sister of the bride and Miss Florence Ross. Dr. Pollock will be the best man.

The bride will be gown in white Liberty Satine with a heavily hand-embroidered overdress and a shower bouquet of white roses and lilies of the valley. The bridemaids will be gown in Prince liberty satine.

Suffered Greatly From Heart Trouble

NERVES WERE VERY WEAK

Mrs. John Farrell, Rose Hill, P.E.I., writes:—"I was with the greatest of pleasure to write you stating the benefit I have received by using Milburn's Heart and Nerve Pills."

"About five years ago I suffered greatly from heart trouble and my nerves were very weak. After seeing several doctors and using their medicine, I got no relief until I found the use of your Heart and Nerve Pills. I took two boxes and they effected a complete cure. I can recommend them highly to all nervous and run-down women."

"I have advised many others to try them, and they have all been cured of the same trouble."

The proper action of the nerves, so important to the well-being of the heart, depends entirely upon the general condition of the nervous system. If there be nerve derangement of any kind, it is bound to produce heart derangement.

In Milburn's Heart and Nerve Pills is combined a treatment that will cure all forms of nervous disorders, as well as set on the heart itself, and in this is the secret of their success in curing so many cases of heart and nerve trouble.

Milburn's Heart and Nerve Pills are 50c. per box, or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
